BANGOR, ALBANY & CHICAGO R. R.

1st MORTGAGE BONDS

Issue Only $18,500 per Mile.

THE ROAD NOW EARNING NET, NEARLY DOUBLE ITS ENTIRE INTEREST OBLIGATIONS.

THE LEADING POINTS IN RELATION TO THESE BONDS ARE AS FOLLOWS

The Stockholders have built a first class road and equipped it in a first class manner, *mainly with their own money*

They have built their road through one of the richest portions of the State, where all the old roads into Chicago are earning over $10,000 per mile per annum and are paying large and regular dividends.

They have built the shortest road to the celebrated Block Coal Mines, whose products have large and increasing market in Chicago, in the manufacture of iron, as well as for domestic uses

The road is already earning so large an excess of its interest liability that its Bonds are safe beyond contingency

The amount of the mortgage is very moderate being only about $18,500 per mile.

While Railroad Bonds may be plenty, those upon profitable lines, and for so small an amount, are seldom in the market

Over $1,200,000 of these Bonds have been sold in a few weeks to Trust Companies, Savings Banks, trustees of estates, and the most careful private investors, and but a small amount remains, for which early application should be made

That so only a small amount remains unsold parties who want them should make immediate application.

The Bonds are for $1,000 each, have forty years to run, and bear interest at the rate of 7 per cent per annum, payable on the first of April and October, both principal and interest being payable in gold in New York

Price 90 and Accrued Interest

We do not hesitate to recommend these Bonds as unusually safe They are attended with none of the uncertainties of projected enterprises, and the prompt payment of the interest and the final payment of the principal, are as certain as any future financial event can well be

FIRST MORTGAGE SINKING FUND GOLD BONDS OF THE

LOGANSPORT, CRAWFORDSVILLE AND SOUTH WESTERN RAILWAY OF INDIANA.

THEY BEAR 8 PER CENT. GOLD INTEREST, PAYABLE QUARTERLY IN NEW YORK, FREE OF GOVERNMENT TAX, AND ARE COUPON AND REGISTERED

The issue is limited to $16,000 per mile, in denominations of $1,000, $500, and $100

The road, 92 miles long, affords the shortest existing outlet to Chicago, Toledo, Detroit, Fort Wayne, Logansport, and intermediate points for the celebrated Block and Bituminous Coals of Parke County, as also, for the large surplus products of the rich agricultural and mineral sections of the State which it traverses.

For the present we are offering these Bonds at 95 and accrued interest in currency, (or will exchange them for Government Bonds, or other marketable securities, at the rates of the day)

RELIGIOUS INTELLIGENCE

Rev E. F. Cutler has resigned the charge of the Congregational church at Rockland

At the Adams street church, Biddeford, several were baptized last Sabbath.

The brick church at Plummer's Mills, in Durham, is being thoroughly repaired and fitted up for a Union church.

Seven candidates were baptized and received into the Baptist church, South Dover, on a recent Sabbath.

The Free Baptist church at West Lebanon is well out a pastor It is said to be a good field for the "right kind of a man."

There are now in Madrid 2,000 Protestant worshippers, and the number is increasing regularly.

The pastor of the Spring street Baptist church, Auburn, baptized seven persons Sunday

There will be a celebration of the approaching 4th of July, by a Sabbath school gathering, at East Livermore camp ground.

The Baptists offer to endow Houlton Academy handsomely, provided that denomination can have a controlling influence in the Board of Trustees.

Nearly two hundred conversions are reported in Monson, Blanchard and Howard, chiefly in connection with the Congregational and Baptist churches.

Rev. Mr. Lockwood, acting pastor of the Congregationalist church in Oxford village for the past two years, has accepted the call to remain another year

On Sunday June 2d, eight persons were admitted to the Congregational church at Harrison—four by letter, and four by profession

Rev W K. Pierce of Eastport, was ordained to the work of the Christian ministry in Centre street church, Machias, Wednesday evening June 12

In Hallowell, at the First Baptist church, eleven persons were received to membership, and at the Free Baptist church, six were baptized.

Rev. Mr Burgess of the Pine street Congregational church, Lewiston, baptized five persons last Sabbath. The parish is reported in a prosperous condition.

Ellsworth has a fine Sunday school this summer under the direction of Rev. R B Snell The school is not large but a good interested is manifested.

Rev. I. G. Ridley, (Baptist) was ordained to the work of an evangelist at the Centre Lane schoolhouse in Presque Isle on Sunday last.

The receipts of the Maine Missionary Society (Congregational) in May were $1,525, $1,000 being a legacy from Ansel Field of Portland, the interest of which can be used at present.

The Methodist church in Boothbay has enjoyed a revival of religion, that in Thomaston purchased a parsonage, that in Rockport has improved its parsonage inside and out.

Rev. H. F. Wood of Bates Theological Seminary in Lewiston, has received a unanimous call to become pastor of the Baptist church in Greenville, R. I., upon leaving the school

The Baptist church at East Dixfield has been refreshed and strengthened. Two were recently baptized, one received the hand of fellowship, and two more will soon unite with the church

The dedication of the 2d Congregationalist church in Thomaston is postponed to the first week of July. As Rev. Mr. Mason is to be away, the Rev Mr Webb of Boston, will preach the dedicatory sermon.

At Saco, in the Storer street church, ten were baptized, and at the Jefferson street church, six, and at one of the other churches fifteen received the same ordinance, and were admitted to full fellowship.

Rev James Wells of Dedham, will close his labors with his present charge at the end of the present pastoral year, in July. Mr. W. has accepted a unanimous call to Northbridge, Mass

Rev. Mr. Bowen of Lewiston baptized twenty candidates Sunday, all young persons The whole number were received into the church in the afternoon, together with six by letter.

Rev. J. Haskell, recently pastor of the Congregational church in Lisbon, Conn., has accepted a call from the Congregational church at Sheepscot Bridge, Maine, and entered upon his labors May 26th.

The Methodist church in Vassalboro' is prospering finely under the faithful labors of Rev C. E Springer. Last Sabbath fifteen persons were baptized, and admitted to the church in full membership.

On a recent Sabbath at the Pine street Methodist church, Portland, five persons received the ordinance of Baptism, and six were admitted to full membership. Others are to be received the coming Sabbath. A good religious interest prevails in the parish.

Owing to some informality in the manner of extending the call to Rev T. T Merry, by the Congregationalist Parish of Machias, he was not installed as announced Thursday evening last. The Council declined to proceed thus postponing the ceremonies till some future day.

The Somerset Conference of Congregational churches met Tuesday, June 11th, at 10½ o'clock in the forenoon. Rev. Thomas G Mitchell of Madison, acted as Moderator and Rev Benj Tappan, of Norridgewock as scribe

The statement going the rounds that Rev George J Pierce, late of the Bangor Seminary, is to be settled as pastor at West End Congregational Chapel in Portland, is not exactly correct. Mr. P has been engaged as stated supply for the chapel for one year

Rev Cyrus Hamlin, D. D. President of Robert College, who has been spending some months in this country, presenting its claim to American Christians has sailed for his home. He intends returning to this country in the fall to complete the endowment of this institution

Father Cleveland died in Boston recently, lacking only sixteen days of being one hundred years old. For more than forty years he ministered to the wants of the poor in Boston, temporal and spiritual, and now has gone to his reward.

The religious interest in the Baptist church in Hallowell continues, and is evidently on the increase. On Sunday evening last, at the prayer meeting, several expressed an earnest desire for the possession of religious experience and hope, and added for the prayers of Christians.

The South Androscoggin quarterly conference of Baptist churches will meet with the church of that denomination in Lewiston on Friday June 28th, at 10 o'clock a.m. The installation of Rev. C. M. Herring as pastor of the First Baptist church of Boston will take place Friday afternoon. Services will begin at 3 o'clock, when Rev. Thomas Jones, of Augusta, will preach the sermon; Rev. J. Ricker will give the charge; Rev. E. Mitchell the right hand of fellowship; Rev. Dr. Malcom will address the church; Rev. Dr. Ide the pastor elect; Rev. Dr. Lorimer the sermon to the people; Rev. Dr. Caldwell will address the people; Rev. Dr. Ide will address the pastor elect; Rev. Dr. Lorimer will address the church; Rev. Dr. Malcom will address the people; Rev. Dr. Caldwell

National Republican Nominations

FOR PRESIDENT,

Ulysses S. Grant,

OF ILLINOIS

FOR VICE PRESIDENT.

Henry Wilson,

OF MASSACHUSETTS

'Gen Grant never has been beaten and he never will be HORACE GREELEY

Republican State Nominations.

FOR GOVERNOR

SIDNEY PERHAM,

OF PARIS

For Electors at Large,

Hon S E SPRING of Portland
Hon ALEX CAMPBELL, of Cherryfield

THE COALITION

The scope of what the Springfield Republican calls, with caustic satire the 'beneficial revolution begun at Cincinnati is now apparent. The movement is the most unprincipled coalition in our political history. Nobody is deceived by calling it a great moral and political revolution, because everybody knows that the worst things have often the finest names. The Inquisition was no less infamous because it was called the Holy Office and the Cincinnati coalition is no less disgraceful because it is called by many good names. Mr Schurz Mr Wells Gen Cox Mr Atkinson, and their friends may have had high purposes in the Convention at Cincinnati. Mr Schurz may even desperately decide, if Mr Greeley is nominated at Baltimore, to take the chance of Greeley rather than the certainty of Grant. He may paint in repulsive colors what he believes to be the misdeeds of this Administration and declare that we ought to overthrow it, and secure a pure and noble Administration in which only honest men with unselfish motives, will take part. But Mr Schurz cannot deny that the Cincinnati movement has not founded a new party with great principles but must end either in ridiculous failure or in a mere coalition

After the regular Democratic Conventions the coalition is probable And will honorable and patriotic men who may be alienated from the present Administration and have hoped for a rallying of political influence from Cincinnati consider just what that coalition is? It is a combination of every element of discontent of disloyalty, and disorder in the country of the great mass of those who are known as unrepentant rebels, of negro haters and repudiators, of the actual and theoretical friends of the Union of ancient and malignant Copperheads of Republicans with personal grievances of notorious and played out politicians of the Tammany and Brooklyn rings and of the worst classes in local politics, of the Ku Klux and Disloyalists and apologists and of some well meaning men utterly bewildered by the company which it hustles and leaves them in. It is a coalition which Mr Schurz is not yet willing to support, and in which the whole Republican name of national importance if Mr Greeley be excepted is Mr Trumbull. It is a combination whose cry is 'Anything to beat Grant' and whose overpowering element is that party mass known as the Democratic party and yet a combination which can hope to hold only the worst part of that party

The Cincinnati movement as such has no general organization and is relatively contemptible in numbers and force If however the coalition be made by the regular Democratic nomination if Mr Greeley the campaign of the coalition will be conducted by the Democratic organization and will be the campaign of the Democratic party It will be the last desperate struggle of that party to recover power Anything to beat Grant is its cry, even the nomination of Greeley if regularly made, because, although it will convince the party it will still leave the organization Anything to beat Grant means merely anything to save his Democratic party But if the real question of the election be one of principle, does any intelligent and patriotic citizen prefer the principles which the Democratic party has supported now supports or professes its willingness hereafter to support, to those which are the glory of the Republican party? Is it absolutely equality before the law? Is it the national supremacy? Is it maintenance of the national faith? Is it the efficient protection of all citizens? Is it a wise generosity in dealing with the results of the war? And upon any of these does such a citizen believe Democratic ascendancy to be more desirable? If on the other hand, the question of the election be one of administration solely, does the same citizen expect greater honesty efficiency and economy from the coalition composed as we all know it to be than from the Republican party?

In politics we deal with men and with imperfection If any Administration should be judged by individual failures instead of general results none could stand But in every great election we are to decide upon probabilities It is always an alternative The Administration of General Grant has been rendered with unprecedented ferocity But looking at it as it stands to-day the object of immeasurable falsehood what sensible, patriotic, honest man would not prefer the stability and security the justice and harmony and order, which it promises, to the wild chaos of a Democratic restoration with Horace Greeley at its head'

We are told of reform From whom and from what is it to proceed? Civil service reform, for instance, is loudly demanded and bountifully promised The principle of a reform of the civil service is that the subordinate offices shall not be party rewards, nor bestowed to further individual interests Is it the Democratic party that promises it? The doctrine of 'the spoils' is a Democratic doctrine. It has been the most vital and sacredly reverenced of all Democratic traditions. Will any body point to any proof that the Democratic party has renounced its faith and its practices upon this point? Or are we told that the Democratic party will be controlled in this reform by the Cincinnati managers? Who were they? They were most conspicuously not the civil service reformers who went to the Convention They were the most notorious political brokers in the country Are they in alliance with the Democratic party to give us civil service reform? Or is it to proceed from the bewildered band of honest men who are hurried along by the Cincinnati 'crowd,' as Mr Adams called it? Hardly, for they are only the fly upon the wheel Civil service reform in the mouth of the coalition means plunder. For the coalition is only the Democratic device to obtain control of the patronage.

The 'Liberal Republican' enthusiasm, it will be observed, is almost exclusively Democratic. Those who declare for the Cincinnati candidates are not Republicans, except some individual editor or newspaper here and there, and in such cases political memory is often only too evident. It is the Democratic Conventions and the Democratic organs who furnish the cries and the countenance for the Cincinnati movement. But, as we said, the coalition is the resort of desperation. The Democratic managers, in nominating Mr Greeley, must, of course, paralyze and lose a very large Democratic vote. The World undoubtedly tells the truth in saying that 'there are hundreds of thousands of true and tried Democrats who will stiffly refuse to vote for Mr Greeley, whether he is indorsed at Baltimore or not.' This is a reasonable view If the Philadelphia National Republican Convention had nominated Horatio Seymour is there any optimist who supposes that the Republican party would not have gone to pieces?

But the Democratic managers hope to make up the loss from the Republicans, and here they are doomed to disappointment. The American people know very well what they have to expect from the Democratic party, and they are not in the least perplexed in their choice between General Grant with the Republicans and Mr Greeley with the Democrats Mr Greeley may be an older Republican than General Grant, but how long have Mr Kinsela, Mr Creamer, Mr Bradley Mr Morrissey, and the Tammany Ring with Beauregard and Wade Hampton, been Republicans, or had the slightest sympathy with any principle or policy which Mr. Greeley has favored?—[Harper's Weekly

The people of the United States know Gen. Grant—have known all about him since Donelson and Vicksburg, they do not know his slanderers, and do not care to know them '—HORACE GREELEY

THE WORK BEGUN

The following correspondence shows that the Republicans in this section of the State are commencing the campaign in earnest. By the tone of these letters it seems that not much 'Greeley stock' in the enterprising towns of Bucksport and Lincoln —

LINCOLN, June 21, 1872.

A large and enthusiastic meeting of the Republicans of Lincoln was held in Lincoln village Thursday evening, and a Grant and Wilson Club organized for campaign work— The following is a list of the officers elect A O Ingersoll, President, A W Weather bee Vice President, H Piper, Secretary, F E Nute Treasurer A Committee was raised to report a constitution of the government of the Club and a Committee to designate an east one man from each school district in town whose duty it shall be to canvass his district and report its political condition from week to week to the club A large and magnificent Grant and Wilson flag will be unfurled to the breeze at a ratification meeting to be held in this village on Thursday next, when the campaign in this section will be fairly begun and the Greeleyites notified to stand from under Speaking of Greeley stock the Republicans in this town who take any are scarce, nearly as scarce as 'hens' teeth, and those few are fostered, watched over, tended on and cooed over by that class of Democrats who, in '68 professed to believe the war for the suppression of the Southern Rebellion an unholy war P

BUCKSPORT June 21, 1872

On Wednesday the Republicans of Bucksport held a ratification meeting, at which it was gratifying to be present. Hon Eugene Hale of Ellsworth, was present by invitation, and gave the principal address of the evening. Mr Hale denied and refuted the charges on which Gen Grant and the administration have been arraigned, showed the great work accomplished by the Republican party since the war closed, and the desperate shift the opposition are driven to in adopting Greeley His remarks were characterized by courtesy and fairness toward Mr Greeley and his supporters The audience was large, and made up of the solid men of the town The Bucksport band furnished excellent music, and great enthusiasm was manifested In answer to the question, 'Have you any Greeley men in town?' the answer by everybody was 'No' D

Marcellus Emery, the Democratic candidate for Congress in the Fourth District, had his biggest gun spiked in the Democratic State Convention when it put the resolution opposed to prohibition under its feet. We shall have no more editorials from him about the terrible injustice of the order law He will be as silent upon that subject as he is utterly about the terrible wickedness of President Lincoln in undertaking to hold Fort Sumpter against the rebels —[Kennebec Journal

The Tribune has deliberately suppressed the new rules for the admission of candidates for employment in the Custom house This is 'independent journalism' Gen. Grant is abused like a pickpocket at Greeley's orders, every day, for not reforming the Civil Service—he puts into operation a very effectual system of reform, and Greeley gives fresh orders that all mention of the fact suppressed Is not that a course worthy of an honest wood chopper? asks the Times.

Two more of the French Departments are soon to be relieved of German soldiery—Marne and Haute Marne These Departments lie half way between Paris and the former French stronghold, Metz, and in them are Chalons, Epernay, Rheims and Chaumont and other important towns Between these departments and the new German frontier only a narrow strip of French territory intervenes

'As to the administration of Gen Grant, I recognize no one as a Republican who is not grateful for its judicious energetic and successful efforts '—HORACE GREELEY.

The Albany Journal says "The value of the Tribune's political intelligence may be judged from a single specimen In its items on 'the progress of the campaign,' it gives this report from Otsego county 'If the Democrats endorse Mr Greeley, Otsego will give him 1500 majority' Now, we happen to know a good deal about the sentiment of Otsego county, and we know that this 'report' is absurd In four of the towns towards the eastern and northern side, a canvass shows that, there are four Greeley Republicans all told, and the number will not run much above that in the rest."

"Whatever chastisement may be deserved by our national sins we must hope that this disgrace and humiliation (of having the democracy restored to power) will be spared us —HORACE GREELEY

Ex President Johnson appears to have about made up his mind to support Greeley. In a recent conversation he is reported as expressing the opinion that Mr Greeley will be endorsed at Baltimore. He admits that it 'will be a bitter pill,' but thinks it impolitic to show the inevitable grimaces attending on that operation in public. He announces his purpose to "swing round the circle" in Tennessee and perhaps other States, against Gen Grant, "no matter," he adds, "who may receive the benefit."

The Missouri Republican, the originator of the passive policy, is persistently urging Democrats to ratify the Cincinnati ticket. In the same connection it indulges itself in such harmless speculations as the following "A Democratic House, with Horace Greeley in the White House and B Gratz Brown as presiding officer of the Senate, would be all but a full Democratic ascendancy."

Tuesday was a day of humiliation for the hunker Democracy of Maine. They swallowed Greeley whole, but the effort was tremendous one. Fancy such old-time leaders as Gorham L. Hopkins, Hannibal Hamlin, J P Rawson and Virgil Delphini Parris shouting themselves hoarse for Greeley & Brown. —[Boston Journal,

"I venture to suggest that Gen Grant will be far better qualified for that mediatorial work [of the government] in 1876 than he was in 1868."—HORACE GREELEY

The Treaty Controversy Settled!

Indirect Claims Excluded!

A PEACEFUL SETTLEMENT!

The Tribunal decides the disputed Point!

THE MEMBERS OF THE TRIBUNAL

Geneva June 21 The representatives of Great Britain before the Alabama Claims Arbitration Tribunal have gone to Chamouix where they will stay until to morrow The Americans have not left for Paris as they intended doing, but remain in this city It is believed that the reason for this

CHANGE IN THE PROGRAMME

for the movements of the representatives is that the supplementary articles to the treaty upon

A BREADTH NEW BASIS

from the one submitted by Granville are now the subject of negotiations between the English and American governments. The changes for a

SATISFACTORY ISSUE

in the difficulties which now surround the arbitration are believed to be increasing

INDIRECT CLAIMS ABANDONED

WASHINGTON June 21 It is reported and believed here that the Arbitrators have adopted the opinion that the claims of the Sackville was as indirect claims are not subject for the award of money damages and it is inferred in view of this declaration that the American agent and counsel will express further our claims of that character

THE QUESTION OF INDIRECT DAMAGES

TO FINALLY SETTLED

From the latest reliable information received here there is no reason to believe as stated in a recent Geneva telegram that supplementary articles to the Treaty of Washington upon a totally new basis from the ones submitted by Earl Granville are now the subject of negotiations between the British and American governments On the contrary there is truth in the allegation that the next meeting of the arbitrators the announcement will be made that the question of indirect damages is settled There is the best reason for believing that at their brief session on the fifth the arbitrators decided

THE CLAIMS CANNOT PROPERLY COME

BEFORE THEM,

they must therefore be excluded and on this announcement being formally made on the 4th inst, it is not apprehended that there will be any further difficulty in proceeding with business under the treaty

From the commencement of the controversy since the American statement of the case was submitted to the Tribunal the British have contended that

SOME THREE DIRECT CLAIMS WERE KNOWN

as the Alabama claims, and that the indirect claims were mentioned by the American Claims Commission not as claims but as references and were mentioned only to be withdrawn from discussion

The government on the other hand has always intended that these claims were

WITHIN THE PROVINCE OF THE TRIBUNAL

and therefore adhered to and never consented their withdrawal, it being considered necessary to insert them in order to keep on record and prevent them from being brought up hereafter to disturb the amicable relations.

It was with the

SUPPLEMENTAL ARTICLE

that the Government of Washington was proposed to relieve the two nations from their position on the positions, but while the parties have been in correspondence regarding the so called phraseology of the article and discussing the subject of the postponement of the proceedings until the next session of Congress the Tribunal itself has

COME TO A DECISION

which renders further controversy on these points unnecessary, and in fact, has settled the question in a manner satisfactory to [illegible] Britain and from a

DISPATCH OF SECRETARY FISH

Minister Schenck of April 16th, in which he reiterated the views previously expressed saying

Should that august Tribunal decide that it is not liable for indirect or consequential results and accidental or unintentional violation of its neutral obligations, the United States will unhesitatingly accept the decision Should it on the other hand decide that Great Britain is liable to this government for such consequential results, they have that full faith in the British Government's observance of its engagements to expect a compliance with the judgement of the tribunal which a solemn treaty between the two powers has created in order to remove and adjust all complaints and claims on the part of the United States To the judgement of the Tribunal when pronounced the United States will implicitly bow They confident of expect the same submission on the part of the great nation with which they entered into such solemn obligations

OF COURSE

HER MAJESTY'S GOVERNMENT MUST BE

SATISFIED

with the decision of the arbitrators excluding the consideration of the indirect claims and it is thought here that in consequence of the action of the Tribunal the additional article of the Treaty is rendered unnecessary, and it will accordingly be altogether withdrawn from the controversy

THE WORLD'S PEACE JUBILEE

FIFTH DAY

COLISEUM Boston June 21 The audience this afternoon was fully equal in numbers and enthusiasm to that of yesterday

THE AMERICAN NATIONAL HYMN,

words by Holmes and music by Keller, was the first number executed by the chorus, orchestra, organ and bands, and it was admirably given As the day was dedicated to Austria, the overture dedicated to Kaiser Francis Joseph was performed by the orchestra under Mr Gilmore's direction and created great enthusiasm The grand chorus from

JUDAS MACCABEUS

which in fine style, under Zerrahn's baton and was duly recognized by the audience

Madame Lucca again aroused the plaudits of the vast audience by her superb execution and volume of tone in the Ave Maria from the first act of Fraucai excelling even her previous essays that have met with such favor In response to the encore she gave Abt's beautiful

"GOOD NIGHT MY DEAREST CHILD,"

under that gentleman's direction. This was received with marked pleasure and it was not without many acknowledgements that the lady was allowed to leave the platform

Mr Arbuckle then performed the

SEVENTH CORNET ARIA

Le Berriot that was encored to the echo, and he responded with his entrancing rendition of the

"LAST ROSE OF SUMMER."

The concert waltz "Kunstler Leben" was set down in the programme for Strauss, but he repeated in its stead his

BEAUTIFUL BLUE DANUBE,"

which has become the favorite, and on the encore again gave his

"PIZZICATO POLKA,"

which set the entire audience dancing in their seats as the great leader danced his time upon the platform

But the popular feature of the day, as yesterday was the performance of the Military Band, this time that of the English Grenadier Guards who under Godfrey, gave the

OVERTURE TO SEMIRAMIDE

and "Reminiscences of Meyerbeer," with solos by Lawford, Ellis and Spencer, the effect upon the vast chorus and audience being electrical

Madame Rudersdorff was led to the platform, when the applause had subsided, and awaited her solo Opportunity in

"GOD SAVE THE QUEEN,"

which was first grandly given by the chorus, orchestra, organ and cannon, under Gilmore, and the highly cultivated voice of the popular soprano repeated the air as only an English lady could repeat it. The refrain was led by the gifted lady, accompanied by the Grenadier Band, chorus, orchestra and cannon, with electrical effect upon their hearers. Quiet once more restored the vast concourse rose and signed to the Grenadier Band and Madame Rudersdorff, and the echo was sung through with increased effect. The applause was unbounded, and when the band finished their allegro in the repetition, the chorus and audience instead on joining. The grand organ followed from pure necessity, and for a few minutes the scene was beyond the power of description. Cheer succeeded cheer and when quiet was somewhat restored the Grenadier Band struck up an Irish air, which set the noisy elements in commotion again. They were permitted to play it through, however, before the enthusiasm rose to its height and as the band marched up the long aisle through the chorus-seats amid cheers and the waving of handkerchiefs, Gilmore, on the spur of the moment, in conjunction with the organist and orchestra, started

"AULD LANG SYNE,"

which was sung by chorus and orchestra with an expressive warmth that has not been witnessed since the festival began.

"THE SLEEPERS WAKE,"

from the oratorio of St. Paul, a piano solo by Arabella Goddard,

"CHI MA FRENA,"

from the opera of Lucia, and

"FAREWELL TO THE FOREST,"

unaccompanied by instruments, were sung with surpassing excellence considering the number who took part, and the day's feast of music closed, with the grand old coronation hymn, in which the audience joined.

ANOTHER CHORUS CIRCULAR

was issued to-day giving the general features of next week's programme. The success of the past three days has led the executive committee to decide upon

ANOTHER CHORAL WEEK,

with the most brilliant features of the present, including the military bands, vocal celebrities and the immitable Strauss, some of the

"DEAD WOOD"

including piano music, being thrown out and all the societies are invited to continue their services and bring in their auxiliaries. The performance of

"ISRAEL IN EGYPT"

by the Handel and Haydn Salem and Lynn societies will be further postponed, in accordance with this change of plan. Mr. Tourjee promises

THE GREATEST WEEK OF CHORAL EFFECTS

yet experienced The prices are to be reduced for the Sacred concert on Sunday, and subsequently to three dollars and two dollars according to location of seats

PRESIDENT GRANT

is expected early in the week, which will doubtless prove the popular season of the Jubilee.

EXCURSION.

The Russian, Spanish and Portuguese Ministers and the Secretaries of the German Legation, were taken on a harbor excursion by the city committee this forenoon

FRANZ ABT

was serenaded this evening by the combined German musical societies of Boston.

THE BANDS

The British and German and British and French bands fraternize, but between the German and French the feeling appears to be of a polite civility merely when they meet. The foreign bands will be assigned a day to select and play its own programme, and prominent New York bands will also appear Mr Gilmore will reserve his own band for a final performance, when it will be increased to sixty pieces in a brilliant uniform

THE "DISAFFECTED!"

They Throw Greeley Overboard!

A NEW NOMINATION TO BE MADE BY THE FREE-TRADERS!

NEW YORK, June 21 A Convention was called by Judge Stallo, at the Fifth Avenue Hotel at 5 o'clock this afternoon. No reporters were admitted, but it has been learned, however, that Ex-Governor Cox made a speech endeavoring to harmonize on Greeley Edward Atkinson urged in a speech the nomination of Charles Francis Adams as means to unite the reformers against Grant.

Among those present were the following gentlemen—Col Grosvenor, T T Gault, of Missouri, Carl Dunizer, Parke Godwin, and W C Bryant. The question was debated, "Shall we nominate a ticket?" and after a long discussion it was decided in the affirmative, when Mr Cox publicly withdrew from the deliberations

The platform denounces Greeley and the Cincinnati platform, and pledges the Free Traders to support their own policy under the circumstances

THE CONFERENCE

at the Fifth Avenue Hotel after a session of three hours, nominated Wm S Groesbeck of Ohio for President, and Fred'k Law Olmstead of New York for Vice President, and adopted the following

RESOLUTIONS

Whereas, At a conference of gentlemen from several States of the Union, held at New York June 20, 1872, it has been conclusively shown that the opposition to the re election of Grant cannot be and ought not to be unitedlon Horace Greeley, therefore,

Resolved, That the following declaration, in our opinion, contains the political principles essential to the welfare of the American people

Resolved, That we, as independent citizens, disregarding former political affiliations and laying aside all mere parties and prejudices, now demand with equal suffrage for all complete amnesty for all; we demand a hearty and unreserved acquiescence to the Constitution as it stands, accepting all the amendments in their true significance, we demand equal civil and political rights for every citizen, and complete protection in the enjoyment of these rights.

Resolved, That local self-government with impartial suffrage will guard the rights of all citizens more securely than any centralized authority, and we affirm our belief in the doctrine that the people are the best governed which are governed least, we therefore demand for individuals the largest liberty consistent with public order We demand for this State self government and for the nation a return to the methods of peace and to the constitution limitations of power

Resolved, That we are opposed to the employment of governmental patronage for party purposes, We protest against the use of public offices to reward political friends or to punish political enemies We are in favor of the adoption of a thorough system of civil service reform, and we demand a return to the early practice under our Government of appointing men to office on the ground of their fitness only and continuing them while honest and efficient.

Resolved, That the national taxes, whether collected under the tariff or excise act, should be imposed for revenue only and not for what is called protection, and that all trade or exchange should be as free as the necessity of the Government will permit.

Resolved, That an act whereby the promise of a dollar is made a legal tender in place of a true dollar can only be defended as a necessity of war; that justice demands the redemption of the promise that the standard of value be true and just and that the honor of the nation be maintained.

Resolved, That undue devotion to party has already greatly damaged the republic, and we now engage ourselves to discountenance in every possible way the despotism of party organization and abject submission of voters to the dictates of politicians

Resolved, That Horace Greeley does not represent these principles, but has been a life long opponent of the most essential of them

Resolved, That we therefore reject his nomination as we reject that of General Grant.

Resolved, That we recognize in William S Groesbeck of Ohio, and Frederick Law Olmstead of New York, men fully in accord with our principles, and of such character and ability as to be worthy of the confidence of the American people, and that we recommend them to all patriotic, independent and liberal voters for their support at the coming Presidential election.

Signed, Thomas T Gault of Missouri, Chairman; Julius Dexter of Ohio, Simon Sterne of New York, Secretaries.

WHAT MR. ADAMS SAYS.

Geneva, June 21. [Special to New York World. In an interview to-day with the World's correspondent Hon. Charles Francis Adams said: "I adhere to the principles laid before the Cincinnati Convention and would accept the Baltimore nomination if the platform is good any the other speakers, and I will never be like-minded in this place." He is greatly concerned for State rights for the future."

FOREIGN NEWS.

GREAT BRITAIN

"MANY A SLIP," ETC.

London, June 21. It is now stated that E Smith of the Atalanta boat club, lost both heats of the Henley sculling match yesterday, instead of one only, as was at first supposed, and that he had been declared out of the race

SMITH'S DEFEAT AT HENLEY.

The following will explain the position of Smith of the Atalantas in the contest at Henley for the diamond sculls Smith rowed in both the second and sixth heats on Thursday, winning the second but being defeated in the sixth, by which, as the loser of a heat, he was disentitled to row in the final heat which was rowed to day, and was won by Mr. Knolly There were ten competitors in the contest for the sculls, and until the conclusion of the sixth heat the American seemed to have an excellent chance for the victory

FRANCE.

DEATH OF MARSHAL FOREY,

PARIS, June 21. Elie Frederick Forey, Marshal of France died yesterday aged sixty-eight

A CRISIS APPROACHING

Paris, June 21. Political affairs are apparently approaching a crisis The interview of yesterday between the delegates of the Right and Thiers, leads to

A COMPLETE RUPTURE

between that portion of the Assembly and the President The members of the Right to the number of 350, have since held a meeting at which the speeches were more expressive of great irritation at the attitude of the chief Executive and it was resolved to leave Thiers to rely entirely for support upon the Left.

During the session of the Assembly to-day the delegates of the Right summoned Duke D'Aumale in the committee room The members of the Ministry all

TENDERED THEIR RESIGNATIONS

to Thiers before the interview with the Right, but were all persuaded by the President to withdraw their resignations to-day, with the single exception of Larcy, the head of the Department of Public Works, to whom it appears that the Right have offered inducements to persist in his determination. The delegates left are in the meantime quiet spectators of the expected crisis in public affairs, but maintain an observant attitude

It appears that the counter proposal of France to Germany in the matter of early

PAYMENT OF INDEMNITY

to the latter were not, as has been reported, despatched to Berlin yesterday morning, but nevertheless a favorable solution of the negotiations between the two powers for the anticipation of payment of the gradual relief of French soil from armed occupation is expected on terms much the same as already stated

WEST INDIES

THE STEAMER COLUMBIA.

HAVANA, June 19 The Steamship Columbia, which arrived at Sagua short of coal and otherwise in distress, left that port accompanied by a Spanish gunboat, until she leaves Spanish waters. There have been

SEVERAL ENGAGEMENTS

between the insurgents and the regular troops lately in the Eastern Department.

The U S Steamer Cambridge has arrived at Havana

EXECUTION.

Gen Yuchan and Captain Varona were executed on the 15th at Puerto Principe.

CONCHER CAPTURED.

An insurgent letter carrier while conveying dispatches from President Cespedes, was captured by Spanish troops. On his person was a letter from Cespedes to Gen Modesto Diaz, ordering the General to concentrate his forces for the purpose of aiding in a grand movement in the direction of Holguin.

SURRENDER OF INSURGENTS

The insurgent Chief Pepillo Gonzales and fifty men armed with Remington rifles, surrendered to the Spanish forces at Los Tunas It is reported that

THE STEAMER FANNIE

landed a cargo of men in safety at Cazo Romano and then steamed towards Nassau and that the insurgents carried her cargo to the main land. The report requires confirmation

THE DOMINION.

RAILWAY ACCIDENT

London, Ont., June 21. A collision occurred last night on the Great Western Railway, between a freight train and a gravel train The gravel train contained a number of laborers and one of them named Ward was instantly killed and several others seriously injured.

FAREWELL BANQUET TO LORD LISGAR.

Ottawa, June 21.

The banquet given to Lord Lisgar, the retiring Governor General, last night was a splendid affair, and was attended by persons of distinction from all parts of the Dominion The chair was taken by Sir Hugh Allan. The American consul general, Dart; and Mr Lawrence of Rhode Island, ex-Minister of the U. S, were among the guests.

THE JAMESON GUARDS' EXCURSION — Complete arrangements have now been perfected for the excursion of the Jameson Guards next week, and there is no doubt that if they are favored with good weather they will have a most enjoyable trip. Monday morning at 10 o'clock the company, fully uniformed and equipped, will leave their armory on Main st. and march to the Custom House, where they will receive their colors The color-guard, eight stalwart veterans in the gorgeous red uniform and bearskins of the old Bangor Light Infantry, cannot fail to attract much attention. Thence the Guards will march to the Penobscot Exchange, where the staff will be received, and with the company proceed to the steamboat wharf, embarking on the good steamer *Cambridge*, which leaves for Boston at 11 o'clock A special dinner will be served for the company between 2 and 4 o'clock P. M, which those who have been favored with a glance at the bill of fare, gotten up by that indefatigable caterer, Steward Wight, say will be rarely equalled afloat or ashore. The trip down river cannot fail to be enjoyable in the extreme, this being the most favorable season for viewing the beauties of the superb scenery for which the Penobscot is celebrated

Arriving in Boston about 6 o'clock Tuesday morning, the company will breakfast on the steamer, and then, under the direction of a committee from the Wooldredge Cadets who will meet them, march to the Eastern Railroad and take the cars for Lynn, where they will arrive about 10 o'clock. The Cadets have not disclosed the programme they intend following, but a public dinner in the afternoon and a grand ball in the evening are understood to be a portion of the courtesies to be extended to the Bangor boys. At any rate the Cadets will not fail to give the Guards a warm reception, and the members of the latter company are content to await what is in store for them, well satisfied that they will receive the best of treatment from their brothers-in-arms. The Guards will leave Lynn about noon Wednesday, arriving in Boston in season to take the 2 o'clock train for Providence, which they will reach about 4 P. M. Full particulars of the proceedings in Providence have not yet been received, but as the Guards go there principally to see the city they will probably spend the evening in looking about for themselves, though there are hints of a parade and exhibition drill in connection with one of the Providence companies.

At 7 o'clock Thursday morning the Guards will take the train for Boston, arriving at 8 50, and being received by the Montgomery Light Guard, who will escort the visiting company to their armory, which has been kindly tendered as headquarters during their stay in Boston In the afternoon the Jameson Guards will visit the Coliseum by special arrangement, after the Jubilee concert returning to the steamer and embarking for home

PULL YOUR OWN WEEDS

Spot in a nile in your garden my friend I pray
Do not stand looking over the fence
To your neighbor's domain—just over the way—
Your weeds are the most conspicuous
Your seeds, while yet there is daylight to work,
Pull out with speed and brain it from the soil
Evening is coming when it may be not safe,
Lest in the dark you repeal the your toil.

What is true in this wise would apply to the garden of life—
It is seldom we see our own weeds—
We are ching our neighbor or wife yet, his wife,
And counting their many misdeeds
We pass our own foibles, our faults we disguise
Under the garments of seldom conceit
We are satisfied with our own eyes
Our neighbor may take a back seat

But as pull our own weeds and work with a will
While yet there is one to be found
Nor point over the faults of others around
We have carefully filled our own garden
For watching the fruits of others we see
Let the same in our own hearts so we also
Let us pull for ourselves let other weeds be
Till we can go down garden Cliffs

FRUITS AND PROMOTERS OF HEALTH.—Fruits and berries this season of the year are not only precious luxuries, but great promoters of health. They act upon the liver, promoting that secretion naturally which many are in the habit of obtaining only by the means of artificial medicines. They may avert many a disease resulting from a torpid condition of the liver. Another way in which they act beneficially is in the mechanical effect their little seeds produce in passing through the bowels, very much the same as the watering of an irritated eye-ball when any hard substance touches that delicate organ, and this water, by dissolving the hardened contents of constipated bowels, keeps them in a healthier state than any pill or purgative invented by the apothecary. There can be no doubt that in the summer and in seasons persons who live mainly on fruits and berries and cease dry bread, can almost insure exemption from sickness, while those who eat heartily of solid meats and vegetables two or three times a day are liable to all the diseases the flesh is heir to.

GREEN COLOR IN PICKLES.—It is said that to impart an excellent green color to pickles they must be first covered with boiling hot salt water, and after a short time the water poured off and the pickles drained—They are then to be placed in an earthen pot and covered with boiling vinegar, the top put on, and the whole kept at a temperature for a long time, the vinegar being pressed off every day, heated to boiling point and poured back upon the pickles. This is continued until the color is a beautiful green. The vinegar used in this process is then to be poured off, and a sufficient quantity of the choicest cider vinegar, although the expense is quite, added to the pickles, and the jar closed tightly. This method of coloring is perfectly harmless, although the expense is quite [illegible]

OFFICIAL.

LAWS OF THE UNITED STATES.
Passed at the Second Session of the Forty-second Congress.

[GENERAL NATURE No. 62.]

AN ACT to promote the development of the mining resources of the United States

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That all valuable mineral deposits in lands belonging to the United States both surveyed and unsurveyed are hereby declared to be free and open to exploration and purchase, and the lands in which they are found to occupation and purchase by citizens of the United States and those who have declared their intention to become such, under regulations prescribed by law and according to the local customs or rules of miners in the several mining districts so far as the same are applicable and not inconsistent with the laws of the United States.

SEC. 2. That mining claims upon veins or lodes of quartz or other rock in place bearing gold, silver, cinnabar, lead, tin, copper or other valuable deposits heretofore located, shall be governed as to length along the vein or lode by the customs regulations, and laws in force at the date of their location. A mining claim located after the passage of this act, whether located by one or more persons may equal but shall not exceed one thousand five hundred feet in length along the vein or lode but no such claim shall extend more than three hundred feet on each side of the vein at the surface except where adverse rights existing at the passage of this act shall render such limitation necessary. The end lines of each claim shall be parallel to each other.

SEC. 3. That the locators of all mining locations heretofore made, or which shall hereafter be made, on any mineral vein, lode, or ledge, situated on the public domain, their heirs and assigns, where no adverse claim exists at the passage of this act, so long as they comply with the laws of the United States, and with State territorial, and local regulations not in conflict with the laws of the United States, governing their possessory title, shall have the exclusive right of possession and enjoyment of all the surface included within the lines of their location, and of all veins, lodes, and ledges throughout their entire depth, the top or apex of which lies inside of such surface lines extended downward vertically, although such veins, lodes, or ledges may so far depart from a perpendicular in their course downward as to extend outside the vertical side lines of said surface sections. Provided, That their right of possession to such outside parts of said veins or lodes shall be confined to such portions thereof as lie between vertical planes drawn downward as aforesaid, through the end lines of their location, so extended in their own direction that such planes will intersect such exterior parts of said veins or ledges. And provided further, That nothing in this section shall authorize the locator or possessor of a vein or lode which extends in its downward course beyond the vertical lines of his claim to enter upon the surface of a claim owned or possessed by another.

SEC. 4. That where a tunnel is run for the development of a vein or lode, or for the discovery of mines, the owners of such tunnel shall have the right of possession of all veins or lodes within the mountain lest from the face of such tunnel on the line thereof, not previously known to exist, discovered in such tunnel, to the same extent as if discovered from the surface, and locations on the line of such tunnel of veins or lodes not appearing on the surface, made by other parties after the commencement of the tunnel, and while the same is being prosecuted with reasonable diligence, shall be invalid; but failure to prosecute the work on the tunnel for six months shall be considered as an abandonment of the right to all undiscovered veins on the line of said tunnel.

SEC. 5. That the miners of each mining district may make rules and regulations not in conflict with the laws of the United States, or with the laws of the State or Territory in which the district is situated, relating to the location, manner of recording, amount of work necessary to hold possession of a mining claim, subject to the following requirements: The name of the lode must be distinctly marked on the ground so that its boundaries can be readily traced. All records of mining claims hereafter made shall contain the name or names of the locators, the date of the location, and such a description of the claim or claims located by reference to some natural object or permanent monument as will identify the claim. On each claim located after the passage of this act and until a patent shall have been issued therefor not less than one hundred dollars worth of labor shall be performed or improvements made during each year. On all claims located prior to the passage of this act, ten dollars' worth of labor shall be performed or improvements made each year for each one hundred feet in length along the vein until a patent shall have been issued therefor, but where such claims are held in common such expenditure may be made upon any one claim, and upon a failure to comply with these conditions, the claim or mine upon which such failure occurred shall be open to relocation in the same manner as if no location of the same had ever been made. Provided, That the original locators, their heirs, assigns or legal representatives, have not resumed work upon the claim after such failure and before such location. Upon the failure of any one of several co-owners to contribute his proportion of the expenditures required by this act, the co-owners who have performed the labor or made the improvements may, at the expiration of the year, give such delinquent co-owner personal notice in writing or notice by publication in the newspaper published near the claim, for at least once a week for ninety days and if at the expiration of ninety days after such notice in writing or by publication such delinquent shall fail or refuse to contribute his proportion to comply with this act, his interest in the claim shall become the property of the co-owners who have made the required expenditures.

SEC. 6. That a patent for any land claimed and located for valuable deposits may be obtained in the following manner: Any person association, or corporation authorized to locate a claim under this act, having claimed and located a piece of land for such purposes, who has, or have, complied with the terms of this act, may file in the proper land-office an application for a patent under oath, showing such compliance, together with a plat and field notes of the claim or claims in common, made by or under the direction of the United States surveyor general, showing accurately the boundaries of the claim or claims, which shall be distinctly marked by monuments on the ground, and shall post a copy of such plat together with a notice of such application for a patent in a conspicuous place on the land embraced, in such plat previous to the filing of the application for a patent, and shall file an affidavit of at least two persons that such notice has been duly posted as aforesaid, and shall file a copy of said notice in such land-office, and shall thereupon be entitled to a patent for said land, in the manner following: The register of the land-office, upon the filing of such application plat, field notes, notices, and affidavits shall publish a notice that such application has been made, for the period of sixty days, in a newspaper to be by him designated as published nearest to said claim; and he shall also post such notice in his office for the same period. The claimant at the time of filing this application, or at any time thereafter, within the sixty days of publication, shall file with the register a certificate of the United States surveyor general that five hundred dollars' worth of labor has been expended or improvements made upon the claim by himself or grantors, that the plat is correct, with such further description by such reference to natural objects or permanent monuments as shall identify the claim, and furnish an accurate description, to be incorporated in the patent. At the expiration of the sixty days of publication the claimant shall file his affidavit, showing that the plat and notice have been posted in a conspicuous place on the claim during all period of publication. If no adverse claim shall have been filed with the register and the receiver of the proper land office at the expiration of the sixty days of publication, it shall be assumed that the applicant is entitled to a patent, upon the payment to the proper officer of five dollars per acre, and that no adverse claim exists, and therefore no objection from third parties to the issuance of a patent shall be heard except it be shown that the applicant has failed to comply with this act.

SEC. 7. That where an adverse claim shall be filed during the period of publication, it shall be upon oath of the person or persons making the same, and shall show the nature, boundaries, and extent of such adverse claim, and all proceedings, except the publication of notice and making and filing of the affidavit thereof, shall be stayed until the controversy shall have been settled or decided by a court of competent jurisdiction, or the adverse claim waived. It shall be the duty of the adverse claimant, within thirty days after filing his claim to commence proceedings in a court of competent jurisdiction, to determine the question of the right of possession, and to prosecute the same with reasonable diligence to final judgment, and a failure so to do shall be a waiver of his adverse claim. After such judgment shall have been rendered, the party entitled to the possession of the claim, or any portion thereof, may, without giving further notice, file a certified copy of the judgment roll with the register of the land office together with the certificate of the the surveyor general that the requisite amount of labor has been expended, or improvements made thereon, and the description required in other cases, and shall pay to the receiver two dollars per acre for his claim, together with the proper fees, whereon or the whole proceedings and the judgment roll shall be certified by the register to the commissioner of the General Land Office, and a patent shall issue thereon for the claim, or such portion thereof as the applicant shall appear, from the decision of the court, to rightfully possess. If it shall appear, from the decision of the court that several parties are entitled to separate and different portions of the claim, each party may pay for his portion of the claim, with the proper fees and file the certificate and description by the surveyor general, whereupon the register shall certify the proceedings and judgment-roll to the Commissioner of the General Land Office, as in the preceding case and patents shall issue to the several parties according to their respective rights. Proof of citizenship under this act, or the acts of July twenty sixth eighteen hundred and sixty six, and July ninth eighteen hundred and seventy, in the case of an individual, may consist of his own affidavit thereof and in case of an association of persons unincorporated, of the affidavit of their authorized agent made on his own knowledge or upon information and belief and in case of a corporation organized under the laws of the United States, or of any State or Territory of the United States by the filing of a certified copy of their charter or certificate of incorporation and nothing herein contained shall be construed to prevent the alienation of the title conveyed by a patent for a mining claim to any person whatever.

SEC. 8. That the description of vein or lode claims, upon surveyed lands, shall designate the location of the claim with reference to the lines of the public surveys, but need not conform therewith; but where a patent shall be issued as aforesaid for claims upon unsurveyed lands, the surveyor general, in extending the surveys, shall adjust the same to the boundaries of such patented claim, according to the plat or description thereof, but so as in no case to interfere with or change the location of any such patented claim.

SEC. 9. That sections one, two, three, four, and six of an act entitled "An act granting the right of way to ditch and canal owners over the public lands, and for other purposes," approved July twenty ninth, eighteen hundred and sixty six are hereby repealed, but such repeal shall not affect existing rights. Applications for patents for mining claims now pending may be prosecuted to a final decision in the General Land Office, but in such cases where adverse rights are not affected thereby, patents may issue in pursuance of the provisions of this act and all patents for mining claims heretofore issued under the act of July twenty sixth, eighteen hundred and sixty-six, shall convey all the rights and privileges conveyed by this act to the same extent as if issued under the act of the passage of this act.

SEC. 10. That the act entitled "An act to amend an act granting the right of way to ditch and canal owners over the public lands, and for other purposes," approved July ninth, eighteen hundred and seventy, shall be and remain in full force, except as to the process to be adopted to obtain a patent, which shall be similar to the proceedings prescribed by sections six and seven of this act for obtaining patents to vein or lode claims, and where such claims shall be upon surveyed lands, and conform to legal subdivisions, no further survey or plat shall be required, and all other provisions of said act relating to such claims shall be applicable thereto. Such claims shall conform as near as practicable with the United States system of public land surveys and the necessary subdivisions of such claims for patent under this act shall be made thereon by lines parallel to the general course of the vein or lode, and such subdivisions, including the discovery shaft and plat shall be made as on unsurveyed lands: Provided, That proceedings now pending may be perfected under the provisions of the act of July 1866 [illegible]

SEC. 11. That all affidavits required to be made under this act, or the act of which it is amendatory, may be verified before any officer authorized to administer oaths within the land districts where the claim may be situated, and all testimony and proofs may be taken before any such officer, and, when taken in accordance herewith, and not otherwise prohibited by law, shall have the same force and effect as if taken before the register and receiver of the land office. In the adjudication of all questions of mineral or agricultural character of land, the testimony and proofs may be taken as herein provided on behalf of mineral claims at least ten days to the opposing party, or if said party cannot be found, then by publication of at least once a week for thirty days, in newspapers to be designated by the register of the land office as published nearest to the location of such land, and the register and receiver shall require proof that such notice has been given.

SEC. 12. That where two or more veins intersect or cross each other, priority of title shall govern, and such prior location shall be entitled to all ore or mineral contained within the space of intersection. Provided, however, That the owner of such vein shall have the right of way through said space of intersection for the purposes of the convenient working of the said mine. And provided also, That where two or more veins unite, the oldest or prior location shall take the vein to the point of union, including all the space of intersection.

SEC. 13. That where non mineral land not contiguous to the vein or lode is used or occupied by the proprietor of such vein or lode for mining or milling purposes such non-adjacent surface ground may be embraced and included in an application for a patent for such vein or load, and the same may be patented therewith, subject to the same preliminary requirements as to survey and notice as in application under this act to veins or lodes: Provided That no location hereafter made of such non adjacent land shall exceed five acres, and payment for the same must be made at the same rate as fixed by this act for the superficies of the lode. The owner of a quartz mill or reduction works, not located on a mine in connection therewith, may also receive a patent for his mill site, as provided in this section.

SEC. 14. That all acts and parts of acts inconsistent herewith are hereby repealed: Provided, That nothing contained in this act shall be construed to impair, in any way, rights or interests in mining property acquired under existing laws.

Approved, May 10 1872.
